January 26, 1973

Dear Dr. Kissinger:

In view of the usually critical press reports, which appear in the European papers in connection with the U.S. involvement in Viet Nam, I was particularly interested to read the attached stories by Adelbert Weinstein, military correspondent of the well-known German Frankfurter Allgemeine Zeitung.

They are surely very factual and unbiased, and I think that they should be read by many of the influential people in this country.

With kind regards, I am

Sincerely,
